

Re-Designing Musculoskeletal (MSK) Services – Have your Say

The Integrated Care Board (ICB) is undertaking a re-design of MSK services, with the aim to commission a single model of MSK service provision across Bedfordshire, Luton and Milton Keynes.

If you would like to:

- ◆ Contribute to the design of the new service
- ◆ Provide a way for feeding back service provider insight
- ◆ Help improve the service you receive

Please contact us at info@healthwatch-centralbedfordshire.org.uk or call 0300 303 8554 to share your experience of MSK services.

We will also be holding focus groups to directly listen to your experience and to inform service design. If you would be interested in taking part, please call 0300 303 8554 for further details.
